COLUMBUS FAY, a well known citizen of Walton, went to Williamsonstown on business. He left his watch at Flynn's jewelry store for repair, while he went out and got a few beers. When he came back the watch wasn't done, but Fay asked him into a back room to drink some beer with him. He found a glass already drawn and drank it down. In a few moments Fay was in a stupor, and when he awoke he was minus \$25. A row followed and Fay had Flynn and his darky porter arrested. They were held in \$1,000 bail, and are now in the cooler. Just a few days ago John Berry Dance, a young man from Falmouth, was robbed in the same house. This makes about ten persons who have been robbed by Flynn and his porter, but they were all afraid to have him arrested.

SMALL farms make near neighbors; they make good roads; they make plenty of good schools and churches; there is more money made in proportion to the labor; less labor is wanted; more is raised to the acre, besides it is tilled better; there is no watching of hired help; the mind is not kept in a worry, stew and fret all the time.

THE stock assigned by Charles C. Boyd at Cincinnati has been appraised at \$11,688 87. The accounts outstanding foot up \$62,979 17, of which the appraisers class \$9,093 39 as good. How is it possible for a person or firm to succeed in business when \$53,885 78 out of a possible \$62,979 17 of book accounts are against dead beasts?

INVENTOR Edison received in one instance a fee of \$40,000 for his opinion as an electrical expert. He was employed by the company organized to bore the Niagara power tunnel to examine the ground, study conditions and plans, and give an opinion as to the feasibility and practicability of the work.

BUNCH JONES was arrested on the Big White Oak, in Greenup county, and taken before the United States Commissioner in Grayson, to answer a charge of selling whisky without a license. He was held over and is now in jail. Jones is the same man that caused sensational reports of his own drowning in the Ohio river below Portsmouth to be circulated some three years ago.

COSMETICS cost the fair Americans \$62,000,000 a year.

An amendment to the Corporation bill was adopted by the Senate at Frankfort which provides that all officers and directors of corporations shall make oath that they will neither suffer nor permit the evasion or violation of any law of the Commonwealth in the interest of their corporation during their terms of office.

SHANAHAN & Sons of Louisville, well-known railroad contractors, secured a contract at Chicago a few days ago which will amount to \$3,000,000. The contract was secured in conjunction with Mason, Hoge & Co., and is to construct the ship and drainage canal which is intended to be used in dumping the offal from Chicago into the Mississippi river. The canal is to be thirty feet deep and 160 feet wide, and \$14,000,000 has been appropriated for the work.

THE Pennsylvania Railroad people will inaugurate a movement next week that is likely to end in one of the most exciting race wars seen for some time. Round trip tickets to New York will be sold by the Pennsylvania company, going July 5th and good for 40 days for \$15. This step will, of course, bring the Big Four and Erie into the rate and the Baltimore and Ohio folks, who are allowed a margin of \$3 on account of difference in distance, will also follow. It is said in railroad circles that this will precipitate things and will cut transportation East away down to bed rock.

THE litigation between the city of Covington and the South Covington and Cincinnati Street Railway Company was terminated in the Chancery Court by a big and decided victory for the city. The point at issue was as to whether the city possesses the right to sell the franchise for operating street railways there. The Street Railway Company, which has a monopoly, contended that its franchise is perpetual, and that the city has no right to offer it for sale. The city's position was that the company's franchise has expired. An array of able attorneys have been engaged, among them Senator Carlisle for the street railway, for two years. The time had come for submitting the case for judgment, when the attorneys for the railway gave up the fight. Judgment was entered for the city, which is thus put in position to offer the franchise for sale, and that will be done. The matter has aroused great public interest, and several syndicates of capitalists are in the field to contend with the company for the purchase of the franchise.

Market Street Property Takes a Tumble.
The back end of the two-story building at No. 23 Market street took a tumble yesterday afternoon. A part of it is occupied by J. L. Daulton as a cigar store and factory, and the rest by Henry Dinger as a barber shop. But little damage was done to the occupants.

The building has long been an old rattle-trap, and would have been removed long ago but for the stubbornness of the owner. We are glad that Messrs. Daulton and Dinger sustained no loss, but if they had unfortunately been injured we would have been delighted if the niggardly possessor had been made to pay a good round sum.

The property is owned by one J. D. Langhorne of Lynchburg, Va. W. S. Frank was for thirteen years the agent but had to give it up on account of the grasping and petty meanness of the landlord.

Captain M. C. Hutchins now has charge of it.
